Howard Johnson.

} Auditors.

SCHOOL REPORT.

DIS. NO. 1

The first term in this district was in care of Miss Minnie L. Wells, and the second in charge of Miss Marietta Ewins.

Both were young, therefore not much experienced in the business of teaching ; yet laboring with patience and diligence both succeeded in manifesting at the closing examinations a very satisfactory improvement in the studies pursued, especially in the Primary Arithmetic and writing for pupils no more advanced in years.

DIS. NO. 2

Summer and fall terms in care of Miss Sarah B. Nelson, having had much successful experience in all our other large schools in town, she, equally in these maintained her well earned reputation.

The winter term conducted by Miss Mary E. Bailey.

Miss Bailey, being no stranger in our schools, having formerly had experience here and superior experience elsewhere, could not well do otherwise than accomplish a good and worthy work, especially in the habits and deportment of this school.

By unfavorable conditions I was unable to witness the closing exercises. But much I expected, and by information from those who were present, witnessing and interested in schools, I should not have been dissatisfied.

DIS. NO. 3

The two terms of school in this district the past year were in charge of Miss Jennette Nelson, who faithfully labored for the welfare and improvement of her pupils, who, being obedient and studious, obtained a thorough knowledge of the several studies pursued, as plainly appeared at the examination.

The greatest progress in Writing and Arithmetic.

Actually a better school-room is needed, one with more light ;

To avoid building a new house you might be the better convened at No. 14, receiving double the amount of schooling, thus doing away with one of our VERY SMALL SCHOOLS.

DIS. NO. 4

With harmony and quietness the first two terms in this district, seemed to be well managed by Miss Myra W. Morgan, proceeding with her usual gratifying success.

Mr. Clarence B. Cheney, by diligence and a persevering effort, combined with those essential qualities of mind and temperament which constitute the make-up of a successful teacher, conducted with a good degree of satisfaction the third term of school.

Excellent improvement in the several studies pursued the past year has been made, and the closing examinations in the presence of parents and others, were quite interesting.

DIS. NO. 6

For giving opportunity for repairing the school building, this school was not opened till late in the year, then for the express purpose of still granting privilege of repairing it was set up in quite a convenient and comfortable room for the number of scholars, in the northern section of the district, accommodating most, those intending to attend the school,

This school, by the attentive habits of the scholars, and by the persisting effort in discipline and thorough instruction manifested by the teacher, Miss Linda E. Nelson, could not fail of being for those pupils an excellent term.

DIS. NO. 7

The orderly and quiet appearance of the scholars in this district renders this a very pleasant and easy school to manage, and was, the first term in care of Mrs. Maria S. Fowler, who, by her earnest efforts to promote the interests of the school gave a general satisfaction.

The second or fall term was in charge of Miss Lena E. Little who, though inexperienced in the business, manifested accuracy in teaching, a good degree of interest and energy, by a determination to succeed; resulting in good improvement in the several studies and a profitable term.

DIS. NO. 8

This, the summer term of about seven weeks and the only one the past year, was taught by Miss Lizzie B. Andrews.

Lacking an interest in things pertaining to studies and from other causes, some of the scholars were very irregular in their attendance.

The teacher was competent, earnest and faithful, and scholars attending regularly made excellent improvement.

DIS. NO. 9

Both terms the past year were in care of Miss Abbie A. Peaslee. Under the teachers faithful and efficient instruction, those pupils, who zealously worked for their own intuitive interest, made thorough and rapid progress; while we lament, that those, spending carelessly and indifferently their precious school days, will presently and eventually realize their own losses.

Frivolous and trifling affairs of the school should not be allowed to divert and absorb the mind, hiding the more worthy object;

that of improvement and a thorough knowledge of the studies.

The TIMELY REGARDING of worthy counseling is of great importance and will usually terminate for all in satisfactory results.

DIS. NO. 10

Those, having care of school the past year, were Miss Nellie E. Wells, summer term, and Miss Abbie A. Peaslee fall term.

The teachers made unabated effort for the improvement and welfare of their pupils, and manifested aptness for imparting instruction to others.

Both terms were commendable to the teachers and scholars.

This is one of our largest and most difficult schools in town the past year excepting two of the village districts.

For the comfort, happiness and prosperity of those who attend school here, a more desirable school building is wanting, and the money used in procuring and maintaining such a one, is not spent in vain nor thrown away.

DIS. NO. 12

The school in this district of one term only the past year, was taught by Miss Georgia A. Nelson.

This school has been considerably increased in numbers the past term for one of our small districts, which renders it much more interesting.

Good instruction has been given and a very satisfactory progress made in the studies pursued.

DIS. NO. 13

This is a union in part with the town of Newbury.

The first term was taught by Miss Hattie E. Shaw, it being her prime effort in teaching-

The second term in care of Miss Belle C. Shaw.

Both were energetic and alive in their work and good order seemed to be one of the noticable characteristics of both schools, and a friendly feeling prevailed, resulting in their happiness and improvement.

More accuracy in studies, combined with the excellent prominent features of the schools, would have greatly increased their final welfare.

Parents and others manifested interest in witnessing the closing examination which was very satisfactory.

DIS. NO. 14

This is a union with a part of the town of Warner.

During the first term Mrs. M. H. Roby was teacher, who has had considerable experience in teaching particularly in this, and working ardently for the progress of her pupils gained very much credit to herself and a permanent benefit to the school.

The fall term was taught by Miss Margaret T. Farnum.

The school when visited near its commencement, gave ample evidence by its quiet and orderly manner, of accomplishing a good work.

Of its progress and appearance at the close, am unable to state, not being present, but should judge it might have been good.

GENERAL REMARKS.

In town during the past year, there has been twenty three terms of school in twelve of the thirteen districts (one without any), and eighteen different teachers employed. seventeen ladies and one gentleman.

There has been as much accomplished in the schools the past year, as any one could reasonably expect, scholars from six to twelve years of age can not and should not be expected to accomplish what they should from twelve to eighteen years of age.

Penmanship, much neglected by some in past years, has, in all the schools received readily its due share of attention.

The writing books have been preserved and treated in each term in a neat, tasty and orderly manner, in a manner not equaled by any in my observation.

It is a lamentable fact, that the parental world do not yet realize the importance of an early, very early training of the would be men and women, which are to take our places.

Children should be impressed by their parents with the importance of their school especially with the idea that it is their duty to attend regularly, to be present at the assigned hour for the commencement of the exercises.

There should be a careful and cautionary training of children in the domestic circle, pertaining to the treatment of each other and their associates, at home, in the street or elsewhere, if you would surely have them respectful, obedient, truthful and trustworthy while at school.

This discipline is of the first importance, and should be so regarded, if we would have our children form good habits and receive the full benefits in a disciplinary and educational point of view, which the schools are intended to give, and the effect will be seen in the coming community.

BENJ. JOHNSON,
